## DEVELOPMENT—MORAL AND MATERIAL—
### (CO-OPERATIVE SOCIETIES.)
*(Nos. 16 and 17.)*

SUBJECT No. 16.

Investment of about two lakhs of rupees in co-operative societies on a nominal interest.

Mr. J. R. Isaac, Indian Christian Association, Bangalore.

*Summary of Representation.*—It is requested that Government may arrange to deposit about two lakhs of rupees on a nominal interest with registered co-operative societies in order to help poor people to get loans for building houses and undertaking industrial concerns on a small scale.

SUBJECT No. 17.

Empowering revenue officers to have direct control over the co-operative societies.

Mr. S. Krishnaswami Rao, Mysore Taluk.

*Summary of Representation.*—Co-operative societies may be ordered to be under the direct control of Amildars and Sub-Division Officers, the Registrar and the Assistant Registrars being supervising officers. This arrangement will be more conducive to the advancement of such societies, especially of agricultural co-operative secieties.

## TECHNICAL—(PUBLIC WORKS.)
*(Nos. 18 to 27.)*

SUBJECT No. 18.

(1) Early construction of the second stage of the Krishnarajasagara Dam.

(2) Association of two non-official representatives of Mysore with the officers of Government to put forth the claims of the Mysore raiyats.

Mr. H. Krishna Sastry, Krishnarajpete Taluk.

*Summary of Representation.*—(1) The second stage of the Krishnarajasagara works has not been undertaken owing to the objection of the people of the Madras Presidency. A very heavy outlay has been incurred on the project utilising Famine Relief Fund. The taluks of Mandya, Nagamangala and Malvalli are dry and no relief has been given to them to improve their conditions. The people of these places have already purchased large areas of land hoping that channels would run in those parts to irrigate their present dry lands and unless this is realised they will be ruined. It is therefore prayed that the second stage may be put on hand and completed without loss of time.

(2) It is also suggested that two non-official representatives from Mysore may be associated with the officers of Government to press the claims of the Mysore raiyats.

SUBJECT No. 19.

Early completion of the incomplete irrigation works.

Mr. H. S. Chikkannagowda, Belur Taluk.

*Summary of Representation.*—Many irrigation works started in the year 1911 and onwards are still under construction for want of sufficient allotment every year. As the raiyats are sustaining heavy loss, it is prayed that the works may be ordered to be completed early.

SUBJECT No. 20.

Utilisation of acreage contributions recovered for a tank, for the repairs of channels of the same tank and the investment of the Deputy Commissioner with the control over its expenditure.

Mr. Şati Halappa, Chitaldrug Taluk.

*Summary of Representation.*—The repairs, etc., to the *nalas* under tanks are not readily carried out and are delayed for years together causing great loss to the raiyats holding lands under the tanks. It is prayed that the acreage contribution amounts recovered for a particular tank may be utilised for the repairs of its *nalas* and the Deputy Commissioner authorised to utilise the amount for the repairs of such *nalas*.
